Mary Beth Addington
Business Operations Manager
Children's of Mississippi
University of Mississippi Medical Center
2500 North State Street
Jackson, MS 39216

Dear Mary Beth,

CardioAccess is the sole provider of the Centripetus web portal that offers several congenital modules to choose from including:

1. The Society of Thoracic Surgeons (STS) Cardiovascular and Thoracic Surgical database module including Anesthesia
2. The American College of Cardiology (ACC) IMPACT (Improving Pediatric and Adult Congenital Treatment) Registry module
3. The Pediatric Cardiac Critical Care Consortium (PC4) module
4. The Pediatric Acute Care Cardiology Collaborative (PAC3) module
5. The PediPERForm Learning Network (PLN) Module
6. A CACConnect HL7 Interface

These modules can be installed as you choose as they are priced individually and allow you to submit data to the registry sites if membership is obtained with them to allow you to benchmark your hospital. Our software uniquely integrates all of these registries into a single software solution.

Regards,
